01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-100

[Enquire ↗](#)

Blue and yellow welding gloves

Designed for welding tasks, these blue and yellow gloves help protect hands from heat, sparks and flames.

APPLICATION Welding

IT-102

[Enquire ↗](#)

Yellow reinforced welding gloves

Reinforced yellow welding gloves designed to help protect hands from welding heat, sparks and flames.

CONSTRUCTION Reinforced

IT-101

[Enquire ↗](#)

Black and yellow welding gloves

Help protect hands from welding heat, sparks and flames with this black and yellow welding glove style.

APPLICATION Welding

IT-103

[Enquire ↗](#)

23 inch burnt orange welding gloves

Shoulder split cowhide provides durable construction, while foam lining adds comfort and heat protection. The 23-inch length offers extended coverage for welding tasks.

LENGTH 23 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-104

[Enquire ↗](#)

23.6 in long sleeve welding gloves

Long leather sleeves extend coverage, while the heat-resistant construction supports welding, stove and barbecue tasks. The stated 23.6-inch length helps buyers select the required coverage.

LISTED LENGTH 23.6 in

IT-105

[Enquire ↗](#)

680 mm extended cuff gauntlets

Blue leather welding gauntlets with Kevlar stitching for durable construction. The extended cuff and stated 680 mm length provide additional forearm coverage and heat protection.

LISTED LENGTH 680 mm

IT-106

[Enquire ↗](#)

Red welding gloves

Shoulder split cowhide and Kevlar stitching provide durability for repeated wear. Cotton lining adds comfort, while the wing thumb supports movement during welding tasks.

LINING Cotton

IT-107

[Enquire ↗](#)

Men's safety cuff welding gloves

Cowhide construction and Kevlar stitching combine durability with a heat-protective lining. The safety cuff provides additional coverage for welding and outdoor use.

CUFF Safety cuff

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-108

[Enquire ↗](#)

Fully lined blue leather welding gloves

Fully lined shoulder split cowhide gloves combine a wing thumb with durable leather construction for comfortable wear. Optional Kevlar stitching adds strength and heat resistance.

STITCHING OPTION Kevlar

IT-110

[Enquire ↗](#)

Welding gloves with fully welted seams

Shoulder split cowhide, cotton lining and a wing thumb balance durability and comfort. A one-piece back and fully welted seams strengthen construction; optional Kevlar stitching adds heat resistance.

STITCHING OPTION Kevlar

IT-109

[Enquire ↗](#)

Men's fully lined welding gloves

Split cowhide, Kevlar thread and a safety cuff provide durable construction and coverage. Full lining adds heat protection for welding and outdoor use. Not flame retardant.

USE LIMITATION Not flame retardant

IT-111

[Enquire ↗](#)

Grey welding gloves

Shoulder split cowhide and a one-piece back provide durable construction. Cotton lining and a wing thumb support comfortable wear, with optional Kevlar stitching for added strength and heat resistance.

STITCHING OPTION Kevlar

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-112

[Enquire ↗](#)

Yellow and black welding gloves

Shoulder split cowhide, cotton lining and a wing thumb provide durable comfort. The one-piece back and fully welted seams reinforce construction; optional Kevlar stitching adds heat and abrasion resistance.

STITCHING OPTION Kevlar

IT-114

[Enquire ↗](#)

Reinforced thumb welding gauntlets

Shoulder split cowhide provides durable wear, while a wing thumb supports comfortable movement. Reinforcement at the thumb crotch strengthens a wear area; optional Kevlar stitching adds strength and heat resistance.

REINFORCEMENT Thumb crotch

IT-113

[Enquire ↗](#)

TIG welding gloves

Top grain leather, a Gunn cut and a wing thumb support dexterity and comfort. A split leather cuff makes the gloves easy to put on; optional Kevlar stitching adds heat resistance.

CONSTRUCTION Gunn cut / wing thumb

IT-115

[Enquire ↗](#)

Cow leather welding gloves

Split cowhide, Kevlar stitching and welted seams provide durable construction. Full lining adds heat protection, while the safety cuff extends coverage for welding and camping use. Not flame retardant.

USE LIMITATION Not flame retardant

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-116

[Enquire ↗](#)

Leather welding gauntlets

An economical shoulder split cowhide option combining durability and breathability. The wing thumb supports comfortable movement, with optional Kevlar stitching for added strength and heat resistance.

STITCHING OPTION Kevlar

IT-118

[Enquire ↗](#)

Triple layer MIG and stick welding gloves

Reinforced construction combines two leather layers with canvas and three-ply Kevlar thread for strength and puncture resistance. Additional leather construction at the cuff, palm patches and back supports durable wear.

STITCHING Three-ply Kevlar

IT-117

[Enquire ↗](#)

TIG welding gloves with split leather cuff

Smooth top grain leather provides durability and dexterity. The Gunn cut and wing thumb support comfortable movement, while the split leather cuff covers the wrist. Optional Kevlar stitching adds strength and heat resistance.

CUFF Split leather

IT-119

[Enquire ↗](#)

Men's pigskin TIG welding gloves

Lightweight, abrasion-resistant pigskin supports precise TIG welding. Full lining adds heat protection, while Kevlar stitching reinforces construction for durable wear. Not flame retardant.

USE LIMITATION Not flame retardant

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-120

[Enquire ↗](#)

Red reinforced welding gloves

Red-dyed buffalo split leather provides a durable base for welding work. Reinforcement and Kevlar stitching strengthen construction, while the stated heat resistance supports use around welding heat.

MATERIAL Buffalo split leather

IT-121

[Enquire ↗](#)

Red wrist length welding gloves

Red-dyed buffalo split leather with full palm and finger reinforcement supports abrasion, cut and heat resistance. Kevlar stitching and a Gunn cut add durability, with a 2.5-inch wrist cuff.

CUFF 2.5 in

IT-122

[Enquire ↗](#)

Red elbow length welding gloves

Red-dyed buffalo split leather combines a reinforced palm with full lining for durable, comfortable wear. Kevlar stitching and an 8-inch Gunn-cut cuff support welding work requiring abrasion, cut and heat resistance.

CUFF 8 in

IT-123

[Enquire ↗](#)

Chrome leather apron palm welding gloves

Cow split chrome leather and a Gunn-cut palm provide durability and abrasion resistance. An 8-inch chrome leather cuff adds coverage, with polyester stitching and cotton drill piping completing the construction.

CUFF 8 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-124

[Enquire ↗](#)

Chrome leather apron palm welding gloves

Cow split chrome leather, a Gunn-cut palm and strong stitching provide durable construction for welding. The stated 24-inch cuff extends coverage beyond the wrist.

LISTED CUFF 24 in

IT-125

[Enquire ↗](#)

Green shoulder length welding gloves

Green-dyed buffalo split leather and strong stitching provide durable wear. Full lining adds comfort, while the stated 24-inch cuff extends coverage for welding tasks.

LISTED CUFF 24 in

IT-126

[Enquire ↗](#)

Green lined welding gloves

Green buffalo split leather and a Gunn cut provide durable welding construction. Full lining supports comfort, with an 8-inch cuff for additional coverage.

CUFF 8 in

IT-127

[Enquire ↗](#)

Green wrist length welding gloves

Green buffalo split leather delivers durable construction in a wrist-length style. Full lining and a Gunn cut support comfortable wear, with a 2.5-inch cuff.

CUFF 2.5 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-128

[Enquire ↗](#)

Blue wrist length welding gloves

Blue buffalo split leather and a Gunn cut provide durable construction for welding work. Full lining adds comfort, with a 2.5-inch cuff for a wrist-length fit.

CUFF 2.5 in

IT-129

[Enquire ↗](#)

Lined welding gloves

Buffalo split leather, full lining and a Gunn cut combine durable construction with comfortable wear. An 8-inch cuff provides additional coverage for welding tasks.

CUFF 8 in

IT-130

[Enquire ↗](#)

Double palm welding gloves

Buffalo split leather and a reinforced palm provide durable construction for welding. The Gunn-cut design supports comfortable wear, with a 2.5-inch cuff.

CUFF 2.5 in

IT-131

[Enquire ↗](#)

Chrome leather welding gloves with yellow palm

A reinforced thumb and Gunn-cut construction support durable wear. The cow chrome leather cuff adds coverage, while the stated heat and abrasion resistance support welding tasks. Listed length: 8 inches.

LISTED LENGTH 8 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-132

[Enquire ↗](#)

Green welding gloves with reinforced yellow palm

Green buffalo split leather with a reinforced palm supports heat, cut and abrasion resistance for welding. The Gunn-cut construction includes a 2.5-inch cuff.

CUFF 2.5 in

IT-133

[Enquire ↗](#)

Mustard lined welding gloves

Mustard buffalo split leather and a Gunn cut provide durable welding construction. Full lining adds comfort, with an 8-inch cuff for extended coverage.

CUFF 8 in

IT-134

[Enquire ↗](#)

Blue welding gloves with reinforced yellow palm

Blue buffalo split leather combines a reinforced thumb with Kevlar stitching for durable welding use. A 6-inch cuff provides additional coverage.

CUFF 6 in

IT-135

[Enquire ↗](#)

Lined double palm welding gloves

Buffalo split leather and a reinforced palm provide durability for welding tasks. Denim lining supports comfortable wear, while an 8-inch cuff adds coverage.

CUFF 8 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-136

[Enquire ↗](#)

General welding gloves

Cow split leather provides durable construction, while fleece and cotton lining add comfort. Welted fingers and Kevlar stitching strengthen the glove for repeated wear.

LINING Fleece and cotton

IT-137

[Enquire ↗](#)

Reinforced cow split leather gloves

Reinforced palm, cuff and knuckle areas strengthen the cow split leather construction. Cotton fleece lining adds comfort, while Kevlar-stitched welted fingers support durable wear.

LINING Cotton fleece

IT-138

[Enquire ↗](#)

Nomex lined apron palm gloves

Cow split leather combines an apron palm with reinforcement at the front, back and cuff. Nomex lining adds heat resistance, while Kevlar stitching and welted fingers strengthen construction.

LINING Nomex

IT-139

[Enquire ↗](#)

Goat grain leather gloves with split cuff

Soft goat grain leather provides comfortable wear, with a cow split leather cuff for added coverage. The unlined design, wing thumb and Kevlar stitching support movement and durable construction.

CONSTRUCTION Unlined / wing thumb

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-140

[Enquire ↗](#)

Thick welding gloves

Cow split leather provides a durable outer construction. Fleece and cotton lining add comfort, while welted fingers and Kevlar stitching reinforce the glove for repeated wear.

LINING Fleece and cotton

IT-142

[Enquire ↗](#)

Hockey palm welding gloves

Cow split leather combines a reinforced hockey palm with a gauntlet cuff and socked lining. Welted fingers and Kevlar stitching support durable construction.

PALM Hockey reinforcement

IT-141

[Enquire ↗](#)

General welding gloves

Fleece and cotton lining support comfortable wear inside durable cow split leather. Welted fingers and Kevlar stitching strengthen the construction for welding work.

LINING Fleece and cotton

IT-143

[Enquire ↗](#)

Heavy duty welding gloves

A reinforced hockey palm strengthens the cow split leather construction. A gauntlet cuff with socked lining adds coverage, while welted fingers and Kevlar stitching support durability.

CUFF Gauntlet

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-144

[Enquire ↗](#)

Heavy duty heat resistant welding gloves

Cow split leather with reinforced palm, thumb and cuff supports durable wear. Heavy denim lining adds comfort, while welted fingers and Kevlar stitching reinforce the construction.

LINING Heavy denim

IT-146

[Enquire ↗](#)

Cow grain and split leather gloves

A cow grain leather front combines with a cow split leather back and cuff. Kevlar lining and stitching strengthen the heavy-duty construction for protective work use.

LINING Kevlar

IT-145

[Enquire ↗](#)

Reinforced welding gloves with lining options

Cow split leather and reinforced palm, knuckle and cuff areas provide durable construction. Fleece or foam lining supports comfort, with welted fingers and Kevlar stitching for added strength.

LINING OPTIONS Fleece or foam

IT-147

[Enquire ↗](#)

24 inch heavy duty welding gloves

The 24-inch design extends coverage. Cow split leather, reinforced palm, knuckle and cuff areas, cotton fleece lining, Kevlar stitching and welted fingers combine durable construction with comfort.

LENGTH 24 in

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-148

[Enquire ↗](#)

Heavy duty black welding gloves

Jet black cow split leather and a reinforced wing thumb provide durable construction. Foam and cotton lining add comfort, with welted fingers and Kevlar stitching for added strength.

LINING Foam and cotton

IT-150

[Enquire ↗](#)

Reinforced apron palm welding gloves

Heavy-duty cow split leather and an extended reinforced apron palm provide durable coverage. Cotton fleece lining adds comfort, while a Velcro cuff, welted fingers and Kevlar stitching complete the construction.

CLOSURE Velcro cuff

IT-149

[Enquire ↗](#)

FR treated leather gloves

FR-treated cow grain leather combines with cow split leather, a reinforced cuff and a Velcro closure. Nomex heat-resistant lining adds protection, while the closure supports an adjustable fit.

LINING Nomex

IT-151

[Enquire ↗](#)

Kevlar lined goat grain leather gloves

Goat grain leather provides a soft outer construction, paired with a jet black split leather cuff. Kevlar fabric lining and Kevlar stitching reinforce the glove for durable wear.

LINING Kevlar fabric

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-152

[Enquire ↗](#)

Reinforced cow split welding gloves

Heavy-duty cow split leather and a reinforced palm provide durable wear. Heavy denim lining adds comfort, with welted fingers and Kevlar stitching strengthening the construction.

LINING Heavy denim

IT-154

[Enquire ↗](#)

1.2 mm cow split welding gloves

Cow split leather with a stated 1.2 mm thickness and reinforced palm and thumb provides durable construction. Thick thermal foam lining adds insulation, with welted fingers and Kevlar stitching for strength.

LEATHER THICKNESS 1.2 mm

IT-153

[Enquire ↗](#)

FR treated gloves with Kevlar wrist

FR-treated cow split leather combines with Kevlar fabric lining for added heat resistance. A Kevlar knit wrist supports a secure fit.

WRIST Kevlar knit

IT-155

[Enquire ↗](#)

Heavy duty reinforced palm gloves

Heavy-duty cow split leather and a reinforced palm support durable wear. Socked lining adds comfort, while welted fingers and Kevlar stitching strengthen the construction.

PALM Reinforced

01 Welding gloves

Leather construction. Extended coverage. Welding essentials.

IT-156

[Enquire ↗](#)

1.4 mm reinforced cow split gloves

Cow split leather with a stated 1.4 mm thickness combines with full socked lining for comfort. Reinforced cuff and thumb areas and a clute-pattern back support durable construction.

LEATHER THICKNESS 1.4 mm

IT-157

[Enquire ↗](#)

Welding gloves with aluminized back

Cow split leather combines with an aluminized back for heat protection. Kevlar fabric lining, welted fingers and Kevlar stitching reinforce the glove for durable wear.

BACK Aluminized

IT-158

[Enquire ↗](#)

Palm and saddle finger gloves

Cow split leather with reinforced palm and saddle finger areas provides durable construction. Kevlar fabric lining, welted fingers and Kevlar stitching add strength and heat resistance.

LINING Kevlar fabric

IT-159

[Enquire ↗](#)

Unlined grain and split leather gloves

Cow grain leather combines with a cow split leather back and cuff for durable construction. The unlined design and wing thumb support movement, with Kevlar stitching for added strength.

CONSTRUCTION Unlined / wing thumb

02 Work gloves

Practical materials and reinforced construction for work.

IT-160

[Enquire ↗](#)

Grain leather work gloves

Cowhide grain leather and reinforced fingertips support durable wear. A lined palm adds comfort, while the wing thumb supports movement during work tasks.

PALM Lined

IT-162

[Enquire ↗](#)

Beige grain leather palm work gloves

Cowhide leather and a Gunn cut provide durable construction for heavy-duty use. A lined palm adds comfort, with a gauntlet cuff for coverage and optional Kevlar stitching.

STITCHING OPTION Kevlar

IT-161

[Enquire ↗](#)

Blue Canadian work gloves

Cowhide grain leather combines with a lined palm and wing thumb for comfortable wear. Reinforced knuckles and a safety cuff add coverage, with easy size identification supporting practical selection.

CUFF Safety cuff

IT-163

[Enquire ↗](#)

Work gloves with 4 inch safety cuff

Cowhide grain leather and a Gunn cut support durable wear. Reinforced knuckles add coverage, while a cotton-lined palm offers comfort and breathability. A 4-inch safety cuff completes the construction.

SAFETY CUFF 4 in

02 Work gloves

Practical materials and reinforced construction for work.

IT-164

[Enquire](#)

General cow split leather work gloves

Cow split leather and a cotton back combine durable construction with comfort. Fleece lining adds warmth, while a rubberized cuff and leather knuckle protection complete the glove.

LINING Fleece

IT-165

[Enquire](#)

Waterproof cow split leather work gloves

Waterproof cow split leather gloves with a cotton back for comfortable wear. Fleece lining adds warmth, while a rubberized cuff and leather knuckle protection provide a practical work-glove construction.

LINING Fleece

IT-166

[Enquire](#)

Fleece lined cow split leather work gloves

Cow split leather and a cotton back provide durable construction. Fleece lining adds warmth, while a rubberized cuff supports a secure fit and leather knuckle protection adds coverage.

CUFF Rubberized

IT-167

[Enquire](#)

Lightweight work gloves with denim cuff

An economical cow split leather glove with a reinforced palm patch for durable wear. A denim back and cuff combine with leather knuckle protection in a lightweight work style.

BACK AND CUFF Denim

02 Work gloves

Practical materials and reinforced construction for work.

IT-168

[Enquire ↗](#)

Cow split leather work gloves

Cow split leather and a cotton back provide durable construction. Fleece lining adds warmth, while leather knuckle protection and a 4-inch rubberized cuff extend coverage.

LINING Fleece

IT-169

[Enquire ↗](#)

Breathable reinforced palm work gloves

Cow split leather, a cotton fabric back and a reinforced palm combine comfort with durability. Fleece lining adds warmth, while a hemmed rubberized cuff supports a secure fit.

PALM Reinforced

IT-170

[Enquire ↗](#)

Reinforced palm work gloves with leather cuff

Cow split leather and a reinforced palm provide durable construction. A hemmed leather cuff and knuckle protection add coverage, with optional Kevlar stitching for increased seam strength.

STITCHING OPTION Kevlar

IT-171

[Enquire ↗](#)

Work gloves with reinforced palm and fingers

Cow split leather with reinforced palm and fingers strengthens wear areas. The unlined design supports flexibility, with optional Kevlar stitching for added durability.

STITCHING OPTION Kevlar

02 Work gloves

Practical materials and reinforced construction for work.

IT-172

[Enquire ↗](#)

Red grain leather work gloves

Abrasion-resistant cowhide grain leather combines with a cotton-lined palm and breathable fabric back for comfortable wear. A Gunn cut and wing thumb support movement; reinforced knuckles and fingertips add coverage. Elastic closure, a safety cuff and colour-coded hems simplify fitting, removal and size identification.

SIZE IDENTIFICATION Colour-coded hems

IT-173

[Enquire ↗](#)

Grain leather work gloves

Cowhide grain leather offers durability and abrasion resistance, with a cotton-lined palm, wing thumb and fabric back for comfort. Reinforced knuckles and fingertips add coverage. Elastic closure, a safety cuff and colour-coded hems support secure fitting and straightforward size identification.

SIZE IDENTIFICATION Colour-coded hems

03 Driver & touchscreen gloves

Leather comfort, flexible movement and practical closures.

IT-174

[Enquire ↗](#)

Split cowhide driver gloves

Split cowhide provides durable construction, while a keystone thumb supports comfortable movement. The slip-on fit makes the gloves easy to put on and remove.

IT-175

[Enquire ↗](#)

Goatskin driver gloves

Soft top grain goatskin combines comfort with durability. The keystone thumb supports movement, and the slip-on fit provides straightforward wear and removal.

THUMB Keystone

THUMB Keystone

IT-176

[Enquire ↗](#)

Cowhide driver gloves

Top grain cowhide and a straight thumb provide durable construction for work tasks. A buckle strap supports a secure fit, with slip-on styling and easy size identification.

IT-177

[Enquire ↗](#)

Double palm driver gloves

Top grain cowhide and a reinforced palm strengthen wear areas. A keystone thumb supports comfortable movement, while optional Kevlar stitching adds durability and heat resistance.

CLOSURE Buckle strap

STITCHING OPTION Kevlar

03 Driver & touchscreen gloves

Leather comfort, flexible movement and practical closures.

IT-178

[Enquire ↗](#)

Goat nappa touchscreen gloves

Goat nappa leather and breathable spandex combine comfort with flexibility. A touchscreen index finger allows device use while wearing the gloves, and a Velcro cuff supports a secure fit.

DEVICE USE Touchscreen index finger

IT-179

[Enquire ↗](#)

Unlined goat grain leather gloves

Soft goat grain leather and an unlined construction support flexible wear. A keystone thumb aids movement, while a hemmed elastic wrist helps keep the glove comfortably in place.

WRIST Hemmed elastic

IT-180

[Enquire ↗](#)

Winter cow grain leather work gloves

Cow grain leather provides durable construction, with heavy fur lining for warmth. A keystone thumb supports mobility, while a shirred elastic cuff provides a snug fit.

LINING Heavy fur

IT-181

[Enquire ↗](#)

Unlined cow split leather gloves

Cow split leather provides durable construction in an unlined design for flexibility. A wing thumb supports movement, while a hemmed shirred elastic cuff offers a secure, comfortable fit.

CONSTRUCTION Unlined / wing thumb

03 Driver & touchscreen gloves

Leather comfort, flexible movement and practical closures.

IT-182

[Enquire ↗](#)

Sheep grain leather work gloves

Sheep grain leather and a cotton fleece back combine comfort with an unlined construction for dexterity. A wing thumb supports movement, while an elastic Velcro closure helps secure the fit.

CONSTRUCTION Unlined

IT-184

[Enquire ↗](#)

Warm sheep nappa touchscreen gloves

Soft sheep nappa leather and fleece lining combine comfort with warmth. A touchscreen index finger supports device use, while an elastic cuff, Velcro closure and puller make fitting straightforward.

DEVICE USE Touchscreen index finger

IT-183

[Enquire ↗](#)

Heavy duty buffalo grain leather gloves

Buffalo grain leather and a reinforced palm provide durable construction. The unlined design supports flexibility, while a keystone thumb and hemmed shirred elastic cuff add comfort and a secure fit.

THUMB Keystone

IT-185

[Enquire ↗](#)

Cow aniline leather fashion gloves

Cow aniline leather combines with a breathable spandex laminated back for comfortable wear. A hemmed elastic cuff supports a secure fit.

BACK Spandex laminate

03 Driver & touchscreen gloves

Leather comfort, flexible movement and practical closures.

IT-186

[Enquire ↗](#)

Goat nappa touchscreen gloves

Goat nappa leather and breathable spandex support comfortable wear. A touchscreen index finger allows device use with the gloves on, while a Velcro cuff provides a secure fit.

DEVICE USE Touchscreen index finger

IT-187

[Enquire ↗](#)

Reinforced buffalo grain leather gloves

Buffalo grain leather and a reinforced palm provide durable wear. An unlined construction supports flexibility, with a keystone thumb and hemmed shirred elastic cuff for comfort and a secure fit.

PALM Reinforced

IT-188

[Enquire ↗](#)

Sheep grain leather gloves with fleece back

Sheep grain leather and a cotton fleece back combine comfortable wear with an unlined design. A wing thumb supports movement, while an elastic Velcro closure provides a snug fit.

BACK Cotton fleece

IT-189

[Enquire ↗](#)

Cow grain and split leather gloves

Cow grain leather combines with a cow split leather back for durable construction. The unlined design and keystone thumb support movement, while a hemmed shirred elastic cuff helps secure the fit.

BACK Cow split leather

03 Driver & touchscreen gloves

Leather comfort, flexible movement and practical closures.

IT-190

[Enquire ↗](#)

Split cowhide driver gloves

Split cowhide offers durability, comfort and abrasion resistance. A straight thumb and slip-on style support practical wear, while an internal elastic closure secures the fit. Colour-coded hems simplify size identification.

SIZE IDENTIFICATION Colour-coded hems

IT-191

[Enquire ↗](#)

Top grain cowhide driver gloves

Top grain cowhide combines comfort with durability and abrasion resistance. Slip-on styling supports easy wear, while colour-coded hems simplify size identification.

SIZE IDENTIFICATION Colour-coded hems

04 Impact gloves

Reinforced construction with grip-focused designs.

IT-192

[Enquire ↗](#)

Kevlar lined impact gloves

Kevlar lining and TPR protection provide durable construction. Silicone grip supports handling, while the high-visibility back and comfort-focused design suit extended wear.

GRIP Silicone

IT-194

[Enquire ↗](#)

Synthetic leather impact gloves

Synthetic leather and TPR guards provide durable, impact-resistant construction. PVC grip supports handling, while a breathable, high-visibility design adds comfort and visibility.

CONSTRUCTION Synthetic leather / TPR

IT-193

[Enquire ↗](#)

Goatskin impact gloves

Goatskin construction combines a padded palm with PVC grip for comfortable handling. TPR knuckle protection and reflective tape add practical features to a breathable, washable design.

GRIP PVC

IT-195

[Enquire ↗](#)

Silicone grip impact gloves

Silicone grip supports handling, while Kevlar lining and TPR protection strengthen the construction. A high-visibility back and comfortable design support extended wear.

LINING Kevlar

04 Impact gloves

Reinforced construction with grip-focused designs.

IT-196

[Enquire ↗](#)

Synthetic leather impact gloves

Synthetic leather, PVC grip and TPR protection combine durable construction with secure handling in light oil and dry conditions. A breathable, high-visibility design supports comfortable wear.

GRIP PVC

IT-197

[Enquire ↗](#)

Washable goatskin impact gloves

Goatskin construction combines TPR knuckle protection, a padded palm and PVC grip for comfortable handling. Reflective tape and a breathable, washable design support practical work use.

PALM Padded

IT-198

[Enquire ↗](#)

Padded palm goatskin impact gloves

Durable goatskin and TPR knuckle protection combine with a padded palm and PVC grip for comfortable handling. Reflective tape and a breathable, washable design complete the glove.

GRIP PVC

IT-199

[Enquire ↗](#)

Soft goatskin impact gloves

Soft goatskin provides comfortable wear, with TPR knuckle protection and a padded palm. PVC grip supports secure handling, while the breathable design suits extended use.

PALM Padded

04 Impact gloves

Reinforced construction with grip-focused designs.

IT-200

[Enquire ↗](#)

Amara impact gloves

A synthetic Amara leather front with PVC grip supports handling. Kevlar lining, an EVA-padded knuckle bar and a breathable spandex back with TPR injection provide reinforced construction, with a neoprene cuff for a secure fit.

LINING Kevlar

IT-202

[Enquire ↗](#)

Goatskin impact gloves

Soft goatskin and a breathable design support extended wear. TPR knuckle protection and a padded palm add reinforcement, while PVC grip supports secure handling.

PALM Padded

IT-201

[Enquire ↗](#)

Washable goatskin impact gloves

Goatskin construction combines TPR knuckle protection, a padded palm and PVC grip for comfortable handling. Reflective tape and a breathable, washable design add practical value.

GRIP PVC

IT-203

[Enquire ↗](#)

Impact gloves with padded palm

TPR knuckle protection and a padded palm combine with PVC grip for comfortable handling. Reflective tape and a breathable, washable design support practical use.

GRIP PVC

04 Impact gloves

Reinforced construction with grip-focused designs.
